

SLASH-COMMAND CHEAT SHEET

A fast reference for finding competition, handling match actions, and checking rewards without leaving Discord.

TYPE A COMMAND IN A CORECOMP-ENABLED DISCORD CHANNEL

DISCOVER

/ladder list

Lists active ladders and their current competitive status.

EVERYONE

/team view <team name>

Finds a team profile, roster summary, and current standing.

EVERYONE

/match status <match id>

Shows the latest match-room status and required next action.

LINKED ACCOUNT

COMPETE

/checkin <match id>

Starts secure match check-in when the viewer is eligible.

MATCH PARTICIPANT

/report <score>

Starts score reporting and secure opponent verification.

MATCH PARTICIPANT

/challenge create <team name>

Creates a challenge draft where that ladder allows challenges.

TEAM CAPTAIN

REWARDS

/quest status

Shows current quest progress and eligible reward activity.

LINKED ACCOUNT

ROLLOUT NOTE Availability may vary while the Discord bot is rolled out. The website remains the source of truth.

PERMISSIONS, CONFIRMATION & HELP

Read-only commands answer immediately. Competitive actions verify identity, eligibility, and match state before anything changes.

EVERYONE

Use public discovery commands such as ladder list and team view. No account link is required for public results.

LINKED ACCOUNT

Private match context and reward progress require a verified CoreComp account linked to the same Discord identity.

TEAM CAPTAIN

Challenge creation is shown only when the viewer has captain authority and the selected ladder permits challenges.

MATCH PARTICIPANT

Check-in and reporting require an eligible roster slot. Sensitive actions continue through a signed Discord interaction or secure web match room.

COMMAND UNAVAILABLE

Check spelling, confirm the bot is enabled for that server, then open CoreComp on the web if the command is not part of the current rollout.

ACCOUNT NOT LINKED

Open the CoreComp Discord connection page, link the correct Discord account, then run the command again.

PERMISSION DENIED

Verify your roster role or captain status. Ask a team owner or event admin only when the displayed role is incorrect.

MATCH ACTION BLOCKED

Open the match room and follow the required action shown there. Never share a report token, session link, or account credential in Discord.

BEFORE YOU CONFIRM A MATCH ACTION

- Confirm the team, match ID, and opponent.
- Read the score or status shown in the secure confirmation.
- Return to the CoreComp match room if anything looks wrong.
